

eFOX

Did everyone get it....

We have spent a great deal of time this year trying to improve the way we communicate with the hard working Leicestershire Scout team.

The new eFOX replaced the old paper version which was often either never received by Scouters, or several months late.

We have listened to your feedback and hope that you agree that our new version is much friendlier and more interesting to look at...

We have a database with around a thousand email addresses, but are certain that some people will not be on the list.

Therefore please ask in your team if you know of any other leaders who want to receive the eFOX, ask them to send an email to admin@leics-scout.org.uk, stating full name, group, section, district, appointment and email address to which eFOX should be sent.
